Bringing residents together with a simple mix of paint, colour and fun

There's something truly special about painting in a room full of laughter, colour, and creativity, particularly when you are the instructor.

That's exactly how it felt at the Healthy and Active Paint and Sips hosted recently by Amputees Queensland and the Crestmead 40+ Club.

Local residents, including plenty from Division 2, came together for a few hours of artistic fun, where the only rule was to enjoy the process.

With brushes in hand and smiles on faces, these arty locals explored their creative side in a relaxed, judgement-free space.

From bold strokes to quirky designs, the artwork was as unique as the people behind it.

I was privileged to see first-hand that these sessions are more than just painting – they're about connection.

Strangers became friends, stories

were shared, and the room buzzed with positivity.

It's a reminder that simple but fun community activities like this play a huge role in keeping us all active, engaged, and mentally well.

Here's to more paint, more laughter, and more community spirit!

Go to Page 2 to see a list of free and low-cost activities in Division 2 that may interest you.

Mayor's message

We all live in Logan for a reason – whether it's backyards and big dreams, great parks and schools, community spirit or affordability.

Council works with the community to protect what we love and transform areas that still need work.

We've wrapped up 9 weeks of community consultation on Logan Plan – the blueprint for where homes, jobs, industry and community facilities go, and how we keep our community spirit as we grow.

You asked us to cut red tape and make it easier to buy a home, so we've proposed terrace housing, giving first-home buyers and downsizers more options. We also flagged ecotourism opportunities and practical ways to boost our nighttime economy, so our suburbs feel safe and welcoming after dark.

We heard your concerns about flood mapping loud and clear. Your Councillors and I are working with staff on solutions based on your feedback. This is long-term policy, so we need to get it right before the flood maps become permanent. We're starting with changes to the flood portal, and also want to change policies and improve the mapping.

Council will consider every submission, report back to Councillors, and provide a response to every submission through the *Logan Plan - Public Consultation Report 2025*. Parts of the draft may be revised, then the State Government will review it. If approved, Logan Plan is expected to come into effect in late 2026.

Thank you to all who had a say. You're helping shape the city our kids will inherit. If you didn't have a chance to make a submission, I am always open to hearing your ideas and suggestions.

Council will keep refining Logan Plan and our vision for the next 50 years with your help. Logan's future is bright because we're building it together.

Mayor Jon Raven

Avoid a leak, take a peek!

1. Turn off all taps and water-using appliances in the property.
2. Is there any movement in the red digits or dials of your water meter? Any movement may indicate a leak.
3. To check – read your meter and record the number, keep your taps and water using appliances off for one hour. Read your meter again, record the second reading. If the reading has changed, this may indicate a leak. We suggest contacting a registered plumber to investigate further.

Scan here to find out how to read your meter
