

OUR **LOGAN**

Splash out for summer fun

We've got your family fun sorted this summer with the coolest ways to spend time outdoors.

Visit one of Logan's free water play parks to check out what's on offer including:

- » Flagstone Water Play Park's waterfall treehouse
- » Alexander Clark Park's misting totems
- » Darlington Parklands' fountain pad
- » Logan Gardens' dumping bucket
- » Mabel Park's water pumps
- » Flagstone's Splash and Play Dog Park.

Improving our flood mapping

Your Councillors and I are focused on finding the right balance when it comes to flood mapping. We know residents feel strongly about this, and we thank everyone who has taken part in the conversation.

This year, we've worked hard to improve our flood mapping and policies. We wanted to make it more practical for our community while protecting lives and properties. Using the findings of the independent review, along with feedback we got from the community, the overall number of properties affected by flood overlay mapping will reduce by more than 50 per cent across the city.

There is still more work to do, particularly in relation to creek mapping, and Council has already committed to a further specialist review in this area. The work on making these changes is nearly complete. We will send them to the State Government for approval in October. Once the State approves the changes, we will be able to formally update our flood maps and planning scheme.

Mayor Jon Raven

Koalas on the move

Koala breeding season is here, which means they're on the move searching for mates and new territory.

Here's how drivers can help keep our koalas safe:

- » Slow down between dusk and dawn
- » Watch for 'koala zones' in your area
- » Drive within the speed limit
- » Scan the roadside for movement.

If you spot a sick or injured koala, call: **RSPCA – 1300 ANIMAL (1300 264 625)** or **Wildcare – (07) 5527 2444**.

Weathering storm season

It's now storm season so we need to be prepared for the possibility of severe weather. Damaging winds, hail, heavy rainfall and flash flooding can impact your property.

Council's website has information to help you understand your risk, make an emergency plan and pack an emergency kit. We also have checklists on how to prepare for storms and advice on what to do during severe weather.

For more information:
logan.qld.gov.au/storms

Safe pools save little lives

Before the family splashes back into the pool for summer fun at home, make sure you do a safety check on your swimming pool and spa to keep them safe. Council's handy Swimming Pool Safety Checklist has helpful information to guide you.

By law, owners are required to make sure their pool and spa are fenced and meet the swimming pool safety standard set by the Queensland Government. This includes pool fence height and strength; non-climbable zones; gates and self-closing and self-latching requirements; preventing direct access from a building into a pool area; and mandatory CPR signage.

Visit our website to find the checklist along with other useful information like how to find pool safety inspectors and check your pool registration: logan.qld.gov.au/poolsafety

EnviroGrants for a greener city

We love being a green city! That's why Council is investing \$300,000 in local projects that help to deliver lasting environmental and sustainability benefits.

A record 54 projects received EnviroGrants funding this year through Council's Environmental Levy. The program supports community-led projects that help care for Logan's wildlife and environment.

The Oxley Creek Catchment Association will use its grant for a bushcare pilot project to help landowners manage weeds. Connect 4 Conservation will use its funding for acoustic monitoring and field assessments to identify breeding glossy black-cockatoos.

11 January 2027	Veresdale Scrub, Cedar Grove, Woodhill, Veresdale, Cedar Vale, Mundoolun, North and South Maclean
25 January 2027	Jimboomba, Riverbend, Glenlogan, Flagstone

Place items out on kerb no earlier than one week prior to collection. Visit lccqld.com/kerbsidecleanup

What's new at Waterford West District Park

Wait until you see what's taking shape at the new Waterford West District Park! The park site on Chambers Flat Road is greening up in a sign of things to come, as construction works enter the next phase.

You can now see turfing and planting in the kickaround area, as the 6-hectare project is getting closer to completion by early 2027. After months of earthworks, there are now new structures, play areas and pathways taking shape. Work is also progressing on the internal road, car park, and the water play area.

Once done, families will be able to enjoy lots of activities, from fun in the water play zone, and exploring a large adventure playground, to relaxing in the picnic and barbecue areas, and staying healthy and active on walking paths connecting key areas. There will also be new community toilets.

The \$27 million project is being delivered by Logan City Council, with funding from the Australian and Queensland governments through the SEQ Liveability Fund as part of the SEQ City Deal.

Intersection improvements for Logan Reserve

Construction of a major intersection upgrade at Logan Reserve is now complete, improving access and safety for people travelling through the area.

Located next to Logan Reserve State School, the upgraded intersection at Logan Reserve Road and School Road is helping traffic flow and making it safer for pedestrians and drivers during busy school drop-off and pick-up periods.

Improvements include new traffic lights, 4 new signalised pedestrian crossings, extended turning lanes on Logan Reserve Road, road resurfacing and new line marking.

The Logan City Council project was funded through the Australian Government's Black Spot Program which supports initiatives that improve road safety.

News Bites

Aquatic centres win praise

There's great news for 4 of Council's aquatic centres, which have been awarded for excellence in safety.

Beenleigh Aquatic Centre, Logan North Aquatic and Fitness Centre, Logan West Aquatic Centre and Gould Adams Park Aquatic Centre have all received 'Platinum' safety status from the Royal Life Saving Queensland Aquatic Facility Safety Endorsement program.

Nominate someone excellent

Do you know any local champions or community leaders who deserve a huge pat on the back? Nominate that incredible someone for the 2027 City of Logan People's Excellence Awards.

There are 6 awards for arts and heritage, environment, innovation, social impact, sport and volunteering, and the Mayor's Excellence Award.

Nominate by 13 December at: lccqld.com/peoples-excellence

Cleaning up our rivers

Your local rivers are looking cleaner and healthier thanks to Council removing debris from Logan waterways.

The 3-year project involved cleaning up large debris in the lower Albert and Logan Rivers, removing around 24 tonnes of debris.

Council's ongoing small debris collection programs are also protecting river health, with 240 items removed in 2025/26.
